2024/25 Q2

***Jaime Delgado***

DAC - UPC

# Standardization – Basic concepts

- **Specifications for interoperability**
- Public vs. Private → PUBLIC
- Free vs. Paid
- Patents possible in standards:
  - RAND: Reasonable And Non-Discriminatory
- Open vs. Closed development
- “Individually” initiated (e.g. RFCs in IETF)
- Organizations →

# Standardization – Organizations

- Forum-like: **industry**, users, service providers, regulators, administration, ...  
OMA, DVB, ECMA, ...
- “Formal” standardization organizations:
  - *(States-based)*  
**ISO**, IEC, ITU, ITU-T, CEN, ISO/IEC, ...
  - *(Organizations/Individuals-based)*  
IEEE, IETF, W3C, HL7, GA4GH, ...
- SDO: **Standards Development Organization**

# Examples of SDOs

- **ISO** (International Organization for Standardization)
- **IEC** (International Electrotechnical Commission)
- **ITU-T** (International Telecommunication Union - Telecommunication Standardization Sector)
- **CEN** (European Committee for Standardization)
- **IEEE** (Institute of Electrical and Electronics Engineers)
- **IETF** (Internet Engineering Task Force)
- **W3C** (World Wide Web Consortium)
- **HL7** (Health Level Seven)
- **GA4GH** (Global Alliance for Genomics & Health)
- ...

# Examples of SDOs

- **ISO** (International Organization for Standardization)
- **IEC** (International Electrotechnical Commission)
- **ITU-T** (International Telecommunication Union - Telecommunication Standardization Sector)
- **CEN** (European Committee for Standardization) Less relevant
- **IEEE** (Institute of Electrical and Electronics Engineers) Specific topics: LANs, ...
- **IETF** (Internet Engineering Task Force) Internet standards! RFCs
- **W3C** (World Wide Web Consortium) Web standards
- **HL7** (Health Level Seven) eHealth standards
- **GA4GH** (Global Alliance for Genomics & Health)
- ...

# Activities around standardization

- **Identify/select a standard for a need**
- **Understand what does it solve and how to use it**
- **Be aware of the status of a standard within its development process**
- **Identify new possible standards**
- *Develop new standards*

# Activities around standardization

- **Identify/select a standard for a need**
- **Understand what does it solve and how to use it**
- **Be aware of the standard within its development**
- **Identify the standards**
- **Develop the standards**

**Exercises!**  
**(“Workshop”)**

# Standardization

**More details  
after  
“Workshop”**

# Standardization – Examples

- **W3C:** HTML
- **IETF:** TLS (Transport Layer Security)
- **ISO (ISO/IEC):**
  - Structure
  - MPEG
  - DASH (streaming)
